CAREER OBJECTIVE: Aspiring Java Developer with a robust foundation in Core and Advanced Java, alongside hands-on experience with frameworks such as Spring Boot and Hibernate. Eager to apply my skills in real-world projects, I am enthusiastic about learning new technologies and contributing to innovative, efficient software solutions within a collaborative team environment.

EDUCATION

Bachelor of Engineering – Computer Science Engineering

Dec 2021 – May 2024

DBATU, Lonere – 7.54 CGPA

Diploma in Computer Engineering - MSBTE - 81.49 %

Aug 2018 – Aug 2021

SSC Maharashtra State Board – 86.40%

March - 2018

TECHNICAL SKILLS

Programming Languages: Java, OOP, JSP/Servlets.

Web Development: HTML5, CSS3, Angular, Bootstrap.

Framework: JDBC, Hibernate, JPA, Spring, Spring Boot, MVC, REST API, Microservices.

Tool / Platforms: GitHub, VS Code, Eclipse IDE, Postman, MySQL Workbench.

Database: MySQL.

PROJECTS

Online Voting System | PHP, HTML, CSS, JavaScript, MySQL

Code

- Implemented secure user authentication and election management features.
- Designed a responsive and user-friendly interface for seamless voting experience.
- Utilized MySQL for efficient data storage and retrieval of voting records.
- Ensured real-time vote counting and result display with JavaScript.

Class Attendance Track System | Java, Spring Boot, Hibernate, and MySQL, Maven, Postman.

- Automate attendance tracking through a REST API to streamline integration with existing systems.
- Ensure data accuracy with automated validation and storage of attendance records.
- Facilitate seamless integration with educational platforms to enhance faculty and administrative workflows.

Talkulator | HTML, CSS, JavaScript

Code

- Developed a voice-activated calculator using JavaScript / JAVA and web technology.
- Implemented speech recognition, mathematical expression evaluation, and text-to-speech functionality.
- Collaborated with team members to enhance usability and performance.

BG-Color-Changer | HTML, CSS, JavaScript

Code

- Developed an interactive web application to change the background color dynamically.
- Implemented user interaction with JavaScript and responsive design using CSS.

CERTIFICATIONS

- Full Stack Java Development The Kiran Academy (2024)
- Java + Spring Boot, REST API, MVC, Security & Microservices Udemy(2024)
